

Jon Tallis BEng Hons CEng MIMechE Mechanical and Turnround Engineer Tallis Engineering and Consulting Services Ltd

Jon is an enthusiastic Chartered Mechanical Engineer with proven abilities in preparation and execution of major maintenance events in the petrochemical sector through team mobilisation, scope definition, event preparation, execution and closeout, both at management level and in the field.

Jon's 18 + years' experience in heavy maintenance and outage management at all levels, plus an additional 10 in wider engineering brings deep expertise, gained not just in the petrochemical sector, of what works (and what doesn't).

Direct and to the point, Jon takes a pride in getting work done safely and integrating easily into a client's organisation at whatever level is needed, seeing projects from inception to completion or undertaking short-term interventions to support execution or carrying out "cold eyes" review of event preparation. Jon has the expertise, inter-personal abilities and energy to see challenging assignments through to a successful conclusion.

Jon is available for worldwide assignments both long and short term
